**B.A., Landscape Architecture** | University of California, Berkeley | 2014–2017

---

## Professional Experience

**Founder & Executive Director, Bay Area Autism Collective (BAAC)** | San Francisco, CA | June 2023–Present

- Founded and lead nonprofit organization dedicated to building autism-affirming community through peer support groups
- Facilitate 5-6 peer support groups monthly serving autistic adults across the Bay Area
- Oversee organizational operations, program development, fundraising, volunteer coordination, and community partnerships
- Launched specialized affinity groups including trans/nonbinary autistic adults, creative autistics, and regional groups throughout the Bay Area
- Authored *Facilitating Autistic Peer Support Groups in Principle and Practice* (Jessica Kingsley Publishers, forthcoming 2025), documenting evidence-based methods for autism-affirming group facilitation developed through BAAC
- Featured in major media outlets (ABC News, CNN, Fox 2, Press Democrat) for innovative community-building work

**Founder & Principal, Neurodiversity Labs** | San Francisco, CA | January 2022–Present

- Provide autism-affirming coaching, consulting, and educational services grounded in the neurodiversity paradigm

- Coach autistic adults (specializing in late-diagnosed individuals) on executive functioning, relationships, career navigation, burnout management, and independent living
  - Support families seeking to better understand and support autistic loved ones
  - Deliver keynote presentations and workshops on neurodiversity, inclusive practices, and organizational change for corporations, educational institutions, and government agencies
  - Consult with organizations on neurodiversity inclusion, accessibility, and autism-affirming practices
  - Approach integrates neurodiversity paradigm, feminist disability studies, decolonial frameworks, and intersectionality
- 

## Research Interests

Autistic epistemologies | Neurodiversity paradigm | Participatory research with autism communities | Critical autism studies | Ethics in autism research | Disability accessibility | Intersectionality | Black feminism | Decoloniality | Organizational change and inclusive practices

---
